current_logtalk_flag/2

Description

```
current_logtalk_flag(Flag, Value)
```

Enumerates, by backtracking, the current Logtalk flag values.

Template and modes

```
current_logtalk_flag(?atom, ?atom)
```

Errors

Flag is neither a variable nor an atom:
```
type_error(atom, Flag)
```
Flag is not a valid flag:
```
domain_error(valid_flag, Value)
```

Examples

```
| ?- current_logtalk_flag(xml, Value).
```
